Child Support Worksheet

① The Other Parent's Information

How much money does the other parent make every month? (Estimate if you do not know. A GMI worksheet is attached if you need help.)

Figure out the other parent's gross monthly income. This includes money received from employment, social security, unemployment, pension/retirement, interest/investments, etc.
It does not include SSI, SNAP, TANF, cash benefits from the county, or child support received.

I believe the other parent makes $_____ per month (this is "Gross Monthly Income")

**If this number is more than $6000, STOP. This worksheet will not apply.*

Visit nvchildsupportguidelinescalculator.azurewebsites.net/getobligation.aspx to find the appropriate amount.

Determine what the other parent's child support obligation would be:

Gross Monthly Income (from above) $ _____ **X**

.16 (for 1 child)
.22 (for 2 children)
.26 (for 3 children)
.28 (for 4 children)
Add .02 for each additional child

=

Regular Child Support: $ _____

Does this parent earn less than $1995 per month?
